The Group recorded revenue of RM83.53 million for the current quarter under review representing a decrease of 7.35% over revenue of RM90.15 million of previous corresponding quarter.

The Group recorded profit before tax of RM1.62 million for the current quarter under review representing a decrease of 44.8% over profit before tax of RM2.94 million of previous corresponding quarter.

The performance of the business segments for the current period is described as below:

1) Investment Holdings Division

The division's result has decreased significantly as compared to previous corresponding period, mainly due to the following:

- a) A decrease in dividend income from subsidiaries;
- b) An Impairment for amount due from subsidiary, Khind Electrical (Malaysia) Sdn Bhd of RM5.3 million;
- c) Included in the previous corresponding period profit before tax is a one-off gain on controlled transferred property, plant and equipment to one of its subsidiary.
- 2) Trading and Service Division

Trading and Service Division continued to demonstrate strong performance, driven by both domestic and overseas segments. The revenue from its domestic and overseas operations grew 1.8% and 10.7% respectively as compared to previous corresponding period. The significant growth in overseas segment is attributed mainly to the growth in customer base and market shares.

The division achieved significant improvement in profitability, recorded an increase of 245.0% as compared to last corresponding period. This is mainly attributed to higher gross profit margin which was achieved mainly due to improved product portfolio that carry higher margin and also foreign exchange advantages for overseas subsidiaries.

3) Manufacturing Division

The revenue in Manufacturing Division has increased by 6.7% as compared to previous corresponding period which is mainly due to higher sales from inter-companies. However, the division's result has not moved in tandem with the growth in revenue, mainly due to the following:

- a) Increase in production and raw material cost as a result of weakening Ringgit Malaysia;
- b) Increase in upkeep and maintenance costs for improving working conditions and re-organisation of the factory set up, in order to improve productivity and efficiency;
