1. Review of Performance

Comparison results of current quarter and previous corresponding quarter

The Group recorded revenue of RM148.62 million for the current quarter under review representing an increase of 2.1% over revenue of RM145.56 million of previous corresponding quarter.

The Group recorded profit before tax of RM4.05 million for the current quarter under review representing a decrease of 49.8% over profit before tax of RM8.07 million of previous corresponding quarter.

The performance of the business segments for the current period is described as below:

1) Investment Holdings Division

The Investment Holdings Division recorded higher revenue as compared to previous corresponding quarter due to higher management fees and dividends received from subsidiaries. Together with lower operating expenses, the division recorded gain before tax if compared with loss before tax in the previous corresponding quarter.

2) Trading and Service Division

The revenue in Trading and Service Division nearly unchanged as compared to previous corresponding quarter. Local sales improved marginally and the increase in overseas sales was mainly contributed by higher foreign currency rates.

However, the division's results decreased by 24.9% as compared to previous corresponding quarter due to declining gross margin amidst challenging market condition.

3) Manufacturing Division

The revenue in Manufacturing Division has increased by 14.3% as compared to previous corresponding quarter which is mainly due to the increase in local sales and higher contribution from re-export business.

However, the division's results declined by 14.8% as compared to the previous corresponding quarter. This is mainly attributed to the declining gross margin as a result of hike in material and freight cost. The Company continues to focus on improving efficiency and productivity.
